Professional Summary

Senior Automation Specialist with nearly 4 years of IT experience across test automation, API validation, SQL-based backend verification and AWS cloud support. Hands-on experience developing Selenium automation using Java, TestNG, Maven and Page Object Model, along with REST API testing using Postman and backend data validation using SQL. Experienced in enterprise application testing, defect triage and release validation, with additional Spring Boot and Java backend development experience.

Technical Skills

Automation: Selenium WebDriver, Java, TestNG, Maven, Page Object Model, Functional Testing, Regression Testing, Smoke Testing

API & Backend Validation: Postman, REST APIs, JSON, HTTP Methods, HTTP Status Codes, API Testing

Database: SQL, MySQL, H2 (Familiar), PostgreSQL (Familiar)

Programming: Java, SQL

Frameworks & Tools: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Git, Jenkins, Jira

Cloud: AWS (EC2, IAM, S3, VPC, Route 53, ELB, CloudWatch)

Core Concepts: Object-Oriented Programming, MVC Architecture

Professional Experience

Senior Automation Specialist | Airtel Africa (via OpsTree Solutions)

November 2024 - Present

- Support Airtel Money applications by validating new backend features and business workflows across QA and UAT environments serving multiple African markets.
- Develop, maintain and execute Selenium automation suites using Java, TestNG, Maven and the Page Object Model to support functional, regression and smoke testing.
- Validate REST APIs using Postman by testing GET, POST, PUT, PATCH and DELETE endpoints while verifying authentication, JSON payloads, response headers and HTTP status codes.
- Write SQL queries to validate backend data integrity, investigate defects and verify application behaviour across multiple business workflows.
- Collaborate closely with developers during defect triage, root cause analysis and feature validation while actively participating in Sprint Planning, Daily Stand-ups, Sprint Reviews and Retrospectives.
- Contribute to reliable software releases by identifying critical defects before production deployment and improving regression coverage.

Cloud Support Associate | Amazon Web Services

December 2019 - July 2020

- Provided Premium Support to enterprise AWS customers by troubleshooting production networking and cloud infrastructure issues.
- Investigated issues involving Amazon VPC, EC2, Route 53, Elastic Load Balancing and CloudWatch to identify root causes and recommend solutions.
- Worked directly with customers to analyse logs, diagnose networking behaviour and improve application availability.
- Collaborated with cross-functional AWS teams to resolve complex customer issues while maintaining high support quality standards.

Career Break | UPSC Civil Services Examination Preparation

August 2020 - October 2024

- Took a career break to prepare for the UPSC Civil Services Examination before resuming a technology career in November 2024.

QA Engineer | Protiviti Consulting Pvt. Ltd.

July 2018 - November 2019

- Designed and executed manual and automation test scenarios for enterprise web applications.
- Developed Selenium automation scripts using Java and supported regression testing activities.
- Performed SQL validation, defect reporting and collaborated with development teams throughout the software development lifecycle.

Technical Projects

Movie Booking Application

- Developed a Spring Boot application following Controller-Service architecture to manage movie booking workflows.
- Built and validated RESTful APIs for movie and booking operations using Spring Boot.
- Applied input validation and exception handling to improve application reliability and maintainability.

Event Management API

- Built RESTful CRUD APIs using Spring Boot, Hibernate and MySQL following layered architecture principles.
- Designed service and repository layers using Spring Data JPA to perform database operations efficiently.
- Implemented request validation and exception handling to improve API robustness.

Certifications

- AWS Certified Solutions Architect - Associate

Education

Bachelor of Technology (Computer Science & Engineering)

Pranveer Singh Institute of Technology, Kanpur | 2014 - 2018

Volunteer Experience

- **CovidUrgency Relief Initiative** - Developed and maintained a website connecting people with oxygen, plasma, food and hospital resources during the COVID-19 pandemic.
